

Addition et soustraction jusqu' à 99:

Utiliser des stratégies pour soustraire

1

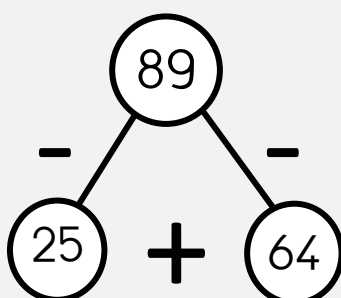

Observe chaque schéma puis complète les soustractions ci-dessous.

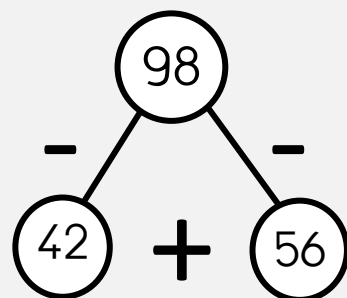

$$67 - 14 = \boxed{}$$

$$67 - 23 = \boxed{}$$

$$89 - 25 = \boxed{}$$

$$89 - 64 = \boxed{}$$

$$98 - 56 = \boxed{}$$

$$98 - 42 = \boxed{}$$

2

Complète.

a) $6 - 4 = \boxed{}$ donc $56 - 4 = \boxed{}$

b) $7 - 3 = \boxed{}$ donc $87 - 3 = \boxed{}$

c) $8 - 5 = \boxed{}$ donc $98 - 5 = \boxed{}$

3

Complète.

a) $60 - 40 = \boxed{}$ donc $62 - 40 = \boxed{}$

b) $70 - 30 = \boxed{}$ donc $74 - 30 = \boxed{}$

c) $80 - 50 = \boxed{}$ donc $87 - 50 = \boxed{}$
