

35 + 28 =

 $38 + 43$

The image shows a 4x16 grid. It is divided into four groups of four columns each. In each group, the third row from the top contains a '+' sign, and the fourth row contains a thick horizontal line. This layout is used for a math activity where students write the numbers 1 through 4 in the first row of each group, and then use the '+' sign and line to create equations.

37 + 27 =

$$58 + 14$$

A 4x16 grid. In the third row from the top, there are four '+' signs at columns 2, 6, 10, and 14. In the bottom row, there are four horizontal lines spanning from column 1 to 4, 5 to 8, 9 to 12, and 13 to 16.

35 + 21 =

 $28 + 45$ A 5x5 grid with dashed lines. Four horizontal bars are drawn across the grid, each spanning 4 units. A plus sign (+) is placed above each bar, centered horizontally. The bars are located at rows 2, 3, 4, and 5. The plus signs are located at columns 2, 3, 4, and 5.

37 + 11 =

$$56 + 36$$

A 4x16 grid. In the third row from the top, there are four '+' signs at columns 2, 6, 10, and 14. In the bottom row, there are four horizontal lines spanning from column 1 to 4, 5 to 8, 9 to 12, and 13 to 16.

35 - 26 =

25 - 48

A 4x12 grid with dashed lines. Four thick horizontal black bars are drawn across the grid, each spanning 4 columns and 1 row. The bars are located at (row, column) coordinates (1, 1) to (1, 4), (2, 6) to (2, 10), (3, 11) to (3, 15), and (4, 16) to (4, 20). A small minus sign '-' is placed in the center of each bar.

11 - 37 =

24 - 46 =

85 - 38

A 4x12 grid with dashed lines. Four thick horizontal black bars are drawn across the grid, each spanning 4 columns. The bars are located in the second, third, fourth, and fifth rows from the top. A small minus sign (-) is placed in the center of each bar. The minus signs are located in the second, third, fourth, and fifth columns from the left.
$$72 - 37 = \dots\dots\dots$$

50 - 39

A 4x16 grid with four horizontal bars and four minus signs. The bars are located in the third row from the top, spanning columns 1-4, 5-8, 9-12, and 13-16. Minus signs are located in the second row from the top, centered in columns 1, 5, 9, and 13.
